July 22/94.

Sir, My friend Dr. Berthold  
Leemann is much in-  
terested in the appearance  
of the work of which I  
enclose a Prospectus &  
kindly circulate it  
for me in Germany.

He thinks perhaps  
you would like to take  
a copy of it. I wish  
me to make use of his  
name as a recommendation  
of it.

Every effort has been  
made to give the work  
completeness as regards  
the Department to which  
it refers, & I can add  
that I have no serious

Double of the affluents  
of any genus which  
I have examined.

I have the honor  
to be Sir

Yours very obed<sup>t</sup>  
servant

Benjamin Park.

J<sup>r</sup> John Torrey.
